

TRANSFER AMBASSADORS

2017-2018

Soroosh

Biochemistry and Molecular Biology

Hey, my name is Soroosh Parsa and I am a third year Biochemistry major. During my free time I like to watch and play soccer, as well as adventure around the city with my friends. I am pursuing a career in healthcare, in which I will soon be applying to medical schools. Most days you can catch me studying in the MLC or eating in the Tate Student Center. I am an avid fan of UGA football, and am very excited for this upcoming season. #godawgs

Ambrya

Biology

Hey, y'all! I'm Ambrya and I'm a third year transfer student. My major is Biology and I'm on the pre-health track. I would like to become a Physician's Assistant in the specialty of either Pediatric Rheumatology or Neurological Surgery. In my spare time, I like to read, go shopping, watch sports (more specifically football and basketball), bake, dance, sing, upon many other things. I can't wait to work with all of you this semester. I can't finish without saying, GO DAWGS!

Jessica

Communication Studies

I am a third-year transfer student from Gainesville, GA. I am majoring in communication studies, minoring in fashion merchandising, and pursuing a certificate in new media. One day, I hope to be a global director of education for a prestigious cosmetic brand. My favorite thing about UGA is the big campus. The countless locations to enjoy studying and relaxing make campus life exciting.

Lyndsey

English

I am a 3rd year transfer student from Athens, GA majoring in English. I currently write for the opinions column at Red & Black newspaper, and just recently became a Franklin College transfer ambassador here at UGA. My goal is for all transfer students to feel welcome when coming to UGA, and to ensure a smooth transition to larger college life.

Nolan

Genetics

My name is Nolan Tucker. I transferred to UGA in spring of 2016. I'm a senior studying genetics and conducting research in Dr. Westpheling's lab, which focuses on utilizing genetic tools to manipulate microbes for the conversion of biomass into biofuels. After graduation I plan to pursue a Ph.D. in Genetics and Genomics.

Tegan

Psychology

My name is Tegan McEntire and I am a 3rd year Psychology major from Dalton, GA. I am an alumni of the Disney College Program in Orlando, FL where I was able to make magic as a Merchandise Cast Member in the fall of 2016. I am the 3rd generation in my family to attend the University of Georgia and I am so thankful to be a dawg! I am a part of Phi Mu, Free the Girls, and Wesley Foundation here on campus and I can't wait to help other transfer students find their niche at UGA just as I have. Go dawgs!
