

The Department of Mathematics at the University of Georgia seeks highly qualified candidates to fill Limited Term Assistant Professor positions beginning in August 2019. Limited Term positions are similar to a postdoctoral position in that they are non-tenure track and involve both teaching and research. This position can be renewed annually but is anticipated to be two years in duration, with the possibility for renewal for a third year. Teaching duties are the equivalent of 3 four-hour semester long courses or 4 three-hour semester long courses per year, and will be aligned with the department's small class initiative at the pre-calculus and calculus level, where class size is capped at 19 students. In addition, Limited Term Assistant Professors are expected to participate in the research life of the Department, including the pursuit of an original research program. Applicants should show promise of moving toward excellence in conducting significant research in mathematics or a related area as well as moving toward the potential for high quality teaching in university mathematics classes.

A Ph.D., or equivalent foreign degree, in Mathematics or a closely related field is required. Applicants are encouraged to identify a member of the current faculty with whom their research aligns. Complete applications (including letters of recommendation) must be received by December 31, 2018 to ensure full consideration, but review will continue until the positions are filled. The University of Georgia is located in Athens, Georgia, which has a vibrant and engaging intercultural community, about 75 miles northeast of Atlanta.

To apply, please submit a vita with a list of publications, a teaching statement, a research statement, and four letters of recommendation (one addressing the candidate's teaching skills), through mathjobs.org. Applications must also be submitted through UGAJobs, <http://www.ugajobsearch.com/postings/33072>. Applications are incomplete and will not be considered until entered both on UGAJobs and MathJobs.

The Mathematics Department, the Franklin College of Arts and Sciences, its many units, and the University of Georgia are committed to increasing the diversity of its faculty and students, and sustaining a work and learning environment that is inclusive. Women, minorities, and people with disabilities are encouraged to apply. The University of Georgia is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ethnicity, age, genetic information, disability, gender identity, sexual orientation, or protected veteran status. Persons needing accommodations or assistance with the accessibility of materials related to this search are encouraged to contact Central HR (hrweb@uga.edu). Please do not contact the department or search committee with such requests.
