   c. Curriculum Committee Report

Submitted on August 25, 2005 by Jim Coverdill (2004-05 Committee Chair)
The committee was asked by the Academic Standards Committee at the end of April to consider several issues. By way of a series of email exchanges, we reviewed and acted on the following three issues.

1. *A student requested that CMLT 4245 count towards the multicultural requirement.* Our committee supported this request. Two actions were taken. First, we initiated the processes whereby this course will be included among the many courses that meet the multicultural requirement. Second, we sent the matter back to the Academic Standards Committee, with our recommendation, because it was not clear that our effort to include this course among those meeting the requirement would be sufficiently expeditious to solve this particular student’s problem. We thus recommended that an exemption be allowed for the student, an action to be taken by the Academic Standards Committee.

2. *Two students requested that ARGD 3020 count as an Area D course.* Our committee supported this request and sent the matter back to the Academic Standards Committee because it was not clear that we had the authority to approve or enact specific requests of this sort (we typically deal with general issues). Importantly, the committee did not move to include ARGD 3020 as a regular course in Area D.

3. *A student requested that a course taken elsewhere be allowed to meet the environmental literacy requirement.* Our committee supported this request. We sent the matter back to the Academic Standards Committee (with our recommendation) for the same reasons indicated in item 2, above.

End of committee reports for this meeting.
